

ABOUT THE MAJOR

The Music & Wellness Pathway blends the artistic with the therapeutic. It allows students an opportunity to develop a program of study that builds a partnership between music and wellness. Wellness refers to the development and nurturing of active, positive and healthy lifestyles. Wellness also includes other supporting courses in the soft and hard sciences that a student would need to prepare for advanced work using music in Occupational Therapy.

The BIS Music and Wellness pathway is a good option for students interested in graduate studies in fields such as Occupational Therapy (which can be a means for incorporating music into therapeutic health as an alternative to study to become a board-certified music therapist). It is also a good option for the student interested in the social and emotional learning of a music program but who finds that the BM is not the best fit.

ABOUT THIS MAP

The Four-Year Plan is designed only as a guide. It does not guarantee; 1) that all courses listed will be offered during a given semester, or 2) if they are offered that the scheduling will not conflict. Estimated time of completion is based on 15 hour semesters, with no summer classes. A change in hours or courses taken during the summer will either reduce (taking 18 hrs or summers) or extend (taking less than 15 hrs) the time needed. Use this map to help plan and guide your experience at UWG, including academic, co-curricular, and discovery opportunities. Everyone's experience is different and activities in this map are suggestions. Always consult with your advisors whenever possible for new opportunities and updates.
